Designing KPI Indicators for BRFSS (Behavioral Risk Factor Surveillance System) Data

Design by: Mohamed

01 General Health Indicators

1.1. Percentage of Respondents Reporting Poor or Fair Health

02 Chronic Disease and Risk Factors

2.1. Hypertension Prevalence Rate

2.2. Diabetes Prevalence Rate

2.3. Asthma Prevalence Rate

2.4.Hypercholesterolemia

03 Social Determinants of Health

3.1. Health Insecurity Rate

3.2. Unemployment Rate

04 Lifestyle and Behavioral Risks

4.1. Smoking Rate

4.2. Binge Drinking Rate

4.3. Physical Inactivity Rate

4.4. Obesity Rate (Based on BMI ≥ 30)

05 Mental Health and Social Factors

5.1. Depression Diagnosis Rate

5.2. Percentage of Adults with Emotional Support Needs Unmet

06 Healthcare Access and Barriers

6.1. Health Insurance Coverage Rate

6.2. Delayed Medical Care Due to Cost

Please note that these Key Performance Indicators (KPIs) represent the minimum set of features, visuals, and analyses included in the final Power BI report. Additional insights may emerge or become evident during the production phase.
